...Quick point of clarification to my resource submission plug just now – we have everything in the attached compilation from the ed workgroup, so it's whatever you'd like to share beyond those listed resources. Re-attaching the doc with what and how to submit here, as well.

Thanks!

All –

Attached please find the latest draft of the agenda for the America Recycles Summit, to inform our discussion in a few minutes.

**Agenda:**

1. Present overview of draft America Recycles Summit agenda (EPA)
2. Describe role of steering committee members in presenting workgroup products at Summit (EPA)
3. Discuss workgroup product presentation (Group)
4. Describe potential panel at Summit (EPA)
5. Discuss panel (Group)

Talk to you all shortly,  
-Brandon

Dear America Recycles workgroup steering committee members,

Thank you all for your continued leadership and for the hard work you all are putting in to ready the various workgroup products for the upcoming America Recycles Summit. The Summit will present a great opportunity to highlight all of the activities that have been happening since last November and to discuss our plans to continue leveraging the diversity of voices participating in the workgroups throughout 2020.

We are setting up this call to discuss the role we anticipate each of your organizations having in the Summit. This will be twofold: (1) presentations from the steering committee members on the products from the past year of workgroup activity; and (2) potentially a panel discussion featuring organizations participating in the steering committees on the impact that has been felt across the recycling system and the path forward.

Thank you to those of you that responded to the Doodle poll with your availability. For those that are unable to attend at this time (Chantal and Adina, I know that this didn't work for you, at least when you filled out the Doodle!), please let me know and I can coordinate a second call on Friday or Monday (10/25 and 10/28).

I will follow up with meeting materials in the next couple of days.

Thank you,  
-Brandon
